

Congratulations, and thank you for purchasing “the most efficient way to heat or cool large open spaces”, a Johnson Air-Rotation® unit!

Dear Customer,

The Johnson Air-Rotation® unit is engineered and constructed to give you years of trouble-free service. As with any piece of equipment, there are a few components that can fail, even under normal use. We have put together a package of a few parts that we recommend that you have on hand. This will allow you to quickly put your Johnson Air Rotation ® unit back into service, should you experience service interruption.

If you want to purchase our Spare Parts Kit, so that you can protect the valuable investment in your building, please sign below and fax this to 314-739-1556, or email CustomerService@Johnson-MarCraft.com.

Included in the **Spare Parts Kit** are:

- Disconnect with Handle
- Contactor(s)
- Overload(s)
- Fuses
- Main Control Relays
- Main Control Panel Lamps
- Main Fan Bearings
- Main Fan Belts
- Rear Excess Limit Switch
- Combustion Airflow Switch`
- Burner Ignition Electrode
- Flame Sensor
